All About aiBot Token

AiBot Token is a utility token that enables transactions across the AiFintech ecosystem. The token is used to purchase AiFintech's products and services, including the AiBotTrader NFT, which is exclusive to AiBot Token holders. AiBot Token is built on the Binance Smart Chain and features low transaction fees and fast confirmation times.

blockchain technology

The AIBT Token Is Built On Top Of The Binance Smart Chain (BSC) Network Using BEP20.

Binance Smart Chain (BSC) Is A Blockchain Network Designed For Running Applications Based On Smart Contracts.

BSC Works In Parallel With Binance's Native Binance Chain (BC), Offering Users The Best Of Both Worlds: BC's High Transaction Capability And BSC's Smart Contract Capability.

BSC Has The Advantage Over Other Blockchains As It Already Has An Optimized Network With Low Transaction Costs In Its Main Layer.
